CHALLENGE COURSE, TEAM BUILDING, OUTDOOR ED AND MORE!

Is your staff, scout, school or church group looking for an exciting new adventure? If you're a leader or member of a group of any kind, check out what the Outdoor Education Center can offer you! All of our programs are able to be tailored to meet the needs of schools, community groups, youth groups, church groups, corporate groups, as well as families and individuals.

The Hopkinton branch has 116 acres of diverse forest and wetlands available for a variety of outdoor and experiential programming. We also host one of the largest challenge courses in New England. Our challenge course is designed for a hands on, physical approach to work on teambuilding, communication, goal setting, positive risk taking, and problem solving skills to name a few.

Additionally, our array of offerings in environmental and adventure education programs are designed to encourage an understanding and appreciation of our natural surroundings through guided discovery, hands on experience, and group discussions. These programs are also a unique and creative way for schools/teachers to meet state and local curriculum requirements.
